

Hold Notification in Slate

Some former BYU students have various holds from other campus offices which block admission and registration. We now have a process to notify us and the applicant that they have a hold that needs to be resolved during the application process, before departments are making decisions.

The applicant should see this on his portal and take the action to resolve the hold. Our Admissions Dean will only take action on suspension holds (it will not be identified that way for the student).

We will be informed of the holds, but we can't clear them.

Sample email message:

Subject: Hold Changes for: 2021-09-22

The student also sees a message on their portal too.
