

All the Great Lights

Generation to generation,
Men array to contemplate
Intelligence above our station.

Matrices and multiplication
Conjure words in hidden state
Generation to generation,

Showing, by some operation,
Crafted works may emulate
Intelligence above our station.

Artificial revelation,
Stumblingblock we recreate
Generation to generation,

Therefore I made my vocation:
"All I code, I consecrate
To Intelligence above our station;

So, by faith and inspiration,
By the noble ones and great,
Generation to generation
Intelligence becomes our station."
