

Teaching the Gospel in China as a Principal

In February 2021, I moved home from Shenzhen, China where I was a teacher, coach, and admin at an international school. I started my Educational Leadership program at BYU in April, and finished in June 2022. In April 2024 the Lord took me back to China, initially as a teacher in an international dept of a Chinese public school, but then when they found out I had my admin degree, they made me the foreign principal/director, and I also did some counseling as well.

As most people know, you can't teach or talk about the gospel to Chinese nationals while in China. As I learned how much they don't show or feel a deep emotional connection or love, I had some Chinese friends get me into teaching conferences and workshops about how to show and feel love. Hugging also not a thing in their culture, so I would teach them how to love, and when I showed them how good a hug feels, they would just hold on tight and not let go. And THAT'S how I taught the gospel of Jesus Christ in China, as Love IS the essence of the gospel!
